Junior Achievement™ of Alabama

Mahjong with a Mission

Junior Achievement reimagines education by helping students connect classroom learning to real-world opportunities. Through hands-on, career-connected experiences, we prepare young people to thrive in a rapidly changing economy and achieve greater economic mobility. By supporting this event, you are investing in the very experiences that help students explore opportunities, build confidence, and prepare for successful futures.

Format: Open Play

Tickets: $250 per person / $1,000 per table

Date: Tuesday, February 9th, 2027
Cocktails & Hors d'oeuvres 5-6:00pm, Game Play 6:00pm

Junior Achievement™ of Alabama

Mahjong with a Mission

What is the Mission?

Futures are not built by chance. They are shaped by opportunity, preparation, and the belief that success is within reach. For more than 70 years, Junior Achievement of Alabama has helped young people discover what's possible for their future. Through hands-on experiences in financial literacy, career exploration, and entrepreneurship, students gain practical skills that connect classroom learning to real-world opportunities. Whether participating in a JA program at school or visiting the JA McWane Economic Education Center, students are challenged to think bigger, dream boldly, and take ownership of their future.

Over the past five years, Junior Achievement of Alabama has reached 165,947 students across our state, helping them build the knowledge and confidence needed to navigate life beyond the classroom. One local 6th grader shared, "I love JA because it taught me to dream big and see new opportunities. I see that with knowledge and hard work, I can do anything!" This reflects the lasting impact these experiences can have. Proceeds from the JA Mahjong for a Mission fundraiser help expand access to programs, ensuring more young people can develop the skills, perspective, and determination needed to achieve their goals. Your support is an investment in Alabama's future workforce, entrepreneurs, community leaders, and innovators.
