Event at 2000 International Park Dr. Birmingham, AL 35243

A Night on Wall Street is presented by First Horizon and RSM and is a modern technology-based stock market simulation that supports Junior Achievement of Alabama, a 501(c) organization dedicated to inspiring and educating young people to succeed in a global economy.

What It Is

A Night On WALL \$TREET

A Night on Wall \$treet Stock Market Challenge is a technology-based simulation of the stock market in which every 60 seconds represents a day of trading. Beginning with a hypothetical account balance of \$1,000,000, teams rush to amass the highest net-worth portfolio by the end of 60 days (one hour in real-time). The stakes are high and the competition is fierce!

During the simulation, teams encounter the frenzy of the stock market by placing trades with floor traders, analyzing market tips, and testing their risk tolerance. The simulation will reinforce the value of teamwork, and may just teach players a little more about being financially savvy. It's all of the rush with none of the risk!

By the end of the night, supporters of this unique experience walk away having invested in far more than just another networking event. They have invested in the future. They have introduced their brand and their support to the next generation, and they have become stakeholders in the Junior Achievement mission to inspire and prepare young people to succeed in a global economy.

Your support will help local students learn financial literacy, workforce readiness, and entrepreneurship skills that will prepare them for a self-sustaining future.

Join us on Thursday, February 29th, 2024 from 6:30-9 pm to get in on the action!
